## PROFESSIONAL EXPERIENCE

### MEGATECH TECHNOLOGIES / MEGATECH — TECHNOLOGY & DIGITAL BUSINESS

---

**Founder / Technology & Digital Business Professional** | Nigeria | Ongoing

- Provide technology and digital-business solutions spanning website design, computer services, digital products, training, social media growth, and online business support.
- Design and develop responsive static websites using HTML, CSS, and JavaScript, with emphasis on performance, usability, SEO, mobile responsiveness, and professional presentation.
- Develop business websites, landing pages, portfolio sites, corporate websites, school websites, eCommerce concepts, and customized web solutions.
- Provide computer-related services including Windows installation and setup, software installation, printer setup, virus scanning and removal, antivirus setup, Microsoft Office installation, Windows/Office activation support, troubleshooting, and general maintenance.

- Develop and deliver practical computer and laptop training, including laptop motherboard repair basics and foundational chip-level repair concepts.
- Create and package digital courses, guides, resource libraries, coaching programs, templates, and other digital products for online learners and small-business owners.
- Develop marketing strategies and promotional content for digital products and services, including hooks, sales copy, educational content, promotional posts, CTAs, customer-engagement templates, and follow-up scripts.
- Develop practical day-by-day business-growth and sales strategies for Facebook, Instagram, and WhatsApp, with emphasis on content, audience growth, lead generation, trust building, conversion, and monetization.
- Work across digital-business niches including freelance services, affiliate marketing, content marketing, mentorship, digital courses, computer repair, social-media services, and website design.
- Provide practical guidance and training designed to move learners from understanding concepts to implementing them through structured exercises, templates, examples, and coaching systems.
