

MEGATECH TECHNOLOGIES

90-DAY INSTAGRAM CONTENT & SALES KIT

FOR SMALL BUSINESSES SELLING DIGITAL PRODUCTS

A Step-by-Step 90-Day System to **Attract, Engage, Convert** and **Sell** Consistently on Instagram

90 DAYS OF CONTENT. STRATEGY. ENGAGEMENT. SALES.

THE PROBLEMS YOU'RE FACING:

- ✗ Posting with no strategy
- ✗ Low engagement
- ✗ No consistent Sales
- ✗ Not sure what to post
- ✗ Followers but no buyers
- ✗ Confused and inconsistent

THIS GUIDE SOLVES THAT.

- ✓ 90 Days of Done-for-You Content
- ✓ Hooks, Captions, CTAs & Sales Posts
- ✓ Content Calendars & Templates
- ✓ DM Scripts & Follow-Up System
- ✓ Engagement Strategies That Convert
- ✓ Built for Digital Product Businesses

90-DAY INSTAGRAM CONTENT & SALES KIT

ONLY **₦10,000 OR \$15**

DEMO AVAILABLE!

Try the demo first and confirm it's exactly what you need before you buy.

90-DAY CALENDARS **DONE-FOR-YOU TEMPLATES** **DM & FOLLOW-UP SCRIPTS** **PROVEN CONTENT STRATEGIES** **DESIGNED TO DRIVE SALES**

This guide is an educational and practical marketing resource. It does not guarantee followers, leads, sales, income or any particular business result. Performance depends on product-market fit, offer quality, audience relevance, execution, consistency, competition, pricing, customer trust and the sales process.

The system is designed to improve decision quality and the probability of useful business outcomes through structured implementation, measurement, testing and iteration.

- Do not fabricate testimonials, screenshots, case studies, urgency, scarcity or results.
- Do not buy followers or engagement.
- Do not use deceptive claims or pressure tactics.
- Respect customer privacy, platform rules and applicable laws.
- Verify current Instagram features in your own account because platform interfaces and eligibility can change.

About This Revised Edition

The uploaded source already had a strong systems-oriented foundation: it connected Instagram activity to attention, trust, conversations, leads, offers, sales, satisfaction, repeat purchase and referrals. It also included product validation, offer creation, profile optimization, content pillars, hooks, captions, CTAs, sales posts, DMs, follow-up, Stories, Reels, carousels, analytics, AI assistance, worksheets and a 90-day calendar.

This edition preserves that foundation but changes the reader experience. The daily program is now written as a connected coaching journey: every day has a mission, briefing, reason, exact actions, deliverable, content, measurement, interpretation, troubleshooting, checkpoint and next-day direction.

THE CORE SHIFT

The reader should not feel that they received 90 posting prompts. They should feel that they are operating a 90-day customer-acquisition and sales system with a coach guiding the next decision from the evidence collected so far.

How to Use This Guide

1. Choose one primary customer and one meaningful problem before trying to scale content.
2. Validate the product or offer instead of assuming that a product will sell because it is well made.
3. Complete Day 1 and continue sequentially. Do not skip ahead simply because a later task looks more exciting.
4. Keep Instagram Insights, your content tracker, lead tracker and sales tracker available while implementing.
5. Publish the primary content recommended for the day; the master libraries are support resources, not instructions to publish everything at once.
6. Record results using the same definitions and denominators each week.
7. Use the IF/THEN diagnostics rather than changing five things at once when performance is weak.
8. Complete the weekly review every seven days and phase checkpoints at the end of each major phase.
9. Use the data gathered during the 90 days to decide what to scale, stop, improve or test next.
10. Treat the guide as an operating manual, not a reading assignment.

Who This Guide Is For

- Small businesses selling ebooks, courses, templates, checklists, guides, spreadsheets, digital tools or resource libraries.
- Creators turning knowledge or practical skills into digital products.
- Freelancers and service businesses developing educational or downloadable products.
- Intermediate entrepreneurs who understand Instagram basics but need stronger strategy, conversion and measurement.
- Existing digital-product sellers who want a repeatable content, DM, follow-up and sales process.

How the Coaching System Works

COACHING LOOP: Do → Publish/Implement → Measure → Interpret → Diagnose → Decide.

Layer	What the reader does	Why it exists
Daily mission	Complete one strategic task and one primary content action.	Creates progress instead of random activity.
Measurement	Record the relevant business and content signals.	Creates evidence for the next decision.
Interpretation	Decide what the result suggests.	Turns analytics into action.
Troubleshooting	Use an IF/THEN rule when a bottleneck appears.	Prevents panic and random changes.
Weekly review	Compare tests, wins, failures and bottlenecks.	Creates a learning loop.
Phase checkpoint	Review whether the system is ready for the next stage.	Prevents building the next layer on a weak foundation.

PART I — STRATEGIC FOUNDATION

1. The Instagram Customer-Acquisition Model

The original guide correctly frames Instagram as a distribution and relationship channel rather than the business itself. The practical chain is:

THE BUSINESS CHAIN

Attention → Interest → Trust → Engagement → Conversation → Lead → Offer → Sale → Satisfaction → Repeat Purchase → Referral

Stage	Customer thought	Business job
Attention	“This is relevant to me.”	Earn attention with a specific hook and topic.
Interest	“Tell me more.”	Teach, demonstrate or clarify.
Trust	“This person understands my problem.”	Show competence, transparency and genuine evidence.
Engagement	“I want to interact.”	Invite useful replies, questions, polls or comments.
Conversation	“Could this solve my situation?”	Use helpful discovery questions and answer clearly.
Lead	“I am considering this.”	Create a low-friction next step and track intent.
Offer	“This is what I can buy.”	Explain outcome, inclusions, fit, price and terms.
Sale	“I am ready.”	Make purchase and checkout simple.
Satisfaction	“This delivered value.”	Deliver well, support use and reduce friction.
Repeat / Referral	“I want more / I know someone.”	Create logical next products and ethical referral paths.

2. Digital-Product Market Fundamentals

The original guide emphasizes an important distinction: people do not buy a PDF, course, template or spreadsheet merely because it exists. They buy the outcome, convenience, saved time, organization, skill, decision support or problem-solving capability represented by it.

Weak approach	Stronger approach
Broad topic	Specific customer problem
“Learn about X”	“Complete Y task using a clear process”
For everyone	For a defined customer and situation
Information only	Information + templates + examples + implementation
Claims	Demonstration, sample and genuine feedback
One announcement	Repeatable content and sales pathway

3. Digital Products With Commercial Potential

Category	Examples	Strategic note
AI & productivity	Prompt libraries, workflow guides, niche AI playbooks	Make them workflow-specific rather than generic lists.
Business growth	Audit workbooks, strategy playbooks, KPI trackers	Pair frameworks with examples and worksheets.
Marketing	Campaign templates, content systems, research worksheets	Demonstrate the system in use.
Sales	Scripts, objection libraries, lead trackers, follow-up systems	Useful when tied to a real sales workflow.
Social media	Content calendars, hook banks, caption systems, analytics trackers	Connect content to a business objective.
Website / digital business	Launch checklists, SEO checklists, landing-page frameworks	Show the finished result and practical checklist.
Career / skills	Interview kits, portfolio checklists, skill roadmaps	Focus on preparation, not guarantees.
Data / productivity	Spreadsheet templates, dashboard guides, reporting checklists	Show a real use case.

Education	Courses, study guides, practice packs	Specific outcomes and guided implementation increase usefulness.
Finance / organization	Cash-flow trackers, planning systems	Keep claims educational and avoid regulated advice.

4. Digital-Product Dead Ends

Risk pattern	Why it struggles	Better move
Generic motivational ebook	Weak differentiation and vague outcome.	Turn it into a specific implementation workbook.
Generic quote ebook	Low problem-solving value.	Add context, exercises and a defined audience.
Huge generic prompt list	Quantity can replace usefulness.	Organize prompts around a real workflow.
Generic AI-generated ebook	May lack originality, depth or verification.	Add human expertise, examples and verification.
Copied templates	Trust and differentiation problems.	Create original or properly licensed assets.
Broad beginner guide	Hard to communicate a specific benefit.	Narrow the audience and job-to-be-done.
No-customer product	Solves an imaginary problem.	Start with customer research and validation.

5. The 7+ Niche Application System

The source guide deliberately demonstrates transferability across multiple contexts. The revised edition centralizes those examples so the daily program does not waste pages repeating the same six adaptations.

Niche	Example product	Customer problem
Business Growth	Business Growth Audit Workbook	"I don't know what is blocking growth."
AI & Productivity	AI Workflow Starter Kit	"I use AI randomly and waste time."
Social Media Marketing	30-Day Content & Sales Kit	"I post but struggle to turn attention into inquiries."
Website Design / SEO	Small Business Website Launch Checklist	"I don't know what a business website needs before launch."
Career / Job Skills	Interview Preparation Workbook	"I need a structured way to prepare."
Online Education	Course Launch Workbook	"I have knowledge but no organized course structure."
Finance / Organization	Small Business Cash-Flow Tracker	"I don't have a clear view of money coming in and going out."
Graphic Design	Client Design Workflow Kit	"My design process is inconsistent."
Freelancing	Freelancer Client Acquisition Kit	"I need a repeatable way to find and follow up with prospects."
Data Analysis	Beginner Dashboard Project Kit	"I need practical projects to learn reporting."

6. Product Validation System

1. Talk to target customers and collect the language they use.
2. Identify recurring problems and the situations in which they occur.
3. Identify desired outcomes in concrete terms.
4. Look for willingness-to-pay evidence: repeated requests, existing spending, urgent contexts or paid alternatives.
5. Create a small prototype, sample, outline or minimum useful version.
6. Collect feedback and record objections.
7. Test demand before investing heavily in production.
8. Improve the offer based on evidence.
9. Build the full product only after the problem and promise are sufficiently clear.

10. Demonstrate the product honestly on Instagram.

VALIDATION RULE

Do not spend weeks polishing a product whose customer problem has not been tested. Validation does not guarantee sales; it reduces avoidable uncertainty.

7. Offer-Market Fit Framework

AUDIENCE → PROBLEM → SOLUTION → OFFER → POSITIONING → PRICE → PROOF → DISTRIBUTION → PURCHASE EXPERIENCE

A strong product can still struggle when one link is weak. Diagnose the chain rather than assuming the answer is simply “post more.”

8. Offer Creation & Pricing

Input	Question to answer
Perceived value	How clearly does the offer solve a meaningful problem?
Problem severity	What happens if the customer leaves the problem unresolved?
Specificity	Is the offer designed for a clear use case?
Depth	Does it provide implementation support or only information?
Support	Is there human feedback or implementation assistance?
Alternatives	What paid and free alternatives exist?
Audience	Does the price fit the buying context?
Bundle logic	Do included resources form a coherent system?

Never treat a single price as universally correct. Test the offer, communicate its value clearly and use customer responses to improve.

9. Instagram Business Foundation

Profile element	Job	Check
Username	Easy to find and remember.	Readable, relevant and consistent.
Profile name	Explain what you do / who you help.	Use useful search language where appropriate.
Photo	Create recognition.	Clear brand or professional image.
Bio	Explain audience + problem + value + next step.	Use a concise proposition and CTA.
Category	Clarify the business.	Choose the closest accurate category.
Contact	Reduce friction.	Add the appropriate contact method.
Link	Give one logical next step.	Send to the most relevant destination.
Highlights	Answer common questions.	Start Here, Products, FAQ, Proof, About.
Pinned posts	Explain the account quickly.	Start Here, Best Resource, Offer.

10. Content Strategy & Pillars

Pillar	Purpose	Useful formats
Educate	Teach something useful.	Reel, carousel, Story, caption.
Prove	Demonstrate competence or genuine evidence.	Demo, case study, process, testimonial.
Engage	Create useful interaction.	Question, poll, quiz, opinion prompt.
Connect	Build relationship and context.	Story, behind-the-scenes, lesson learned.
Sell	Present a relevant offer clearly.	Sales post, Story sequence, product demo.
Follow up	Move existing interest toward a decision.	DM, Story reply, value-based message.

11. Audience Awareness

Awareness	Content job
Problem unaware	Teach symptoms and overlooked problems.
Problem aware	Explain causes, consequences and useful first steps.
Solution aware	Compare approaches and demonstrate your method.
Product aware	Explain offer, inclusions, objections and fit.
Most aware	Make the purchase path simple and answer final questions.

12. Personalized Posting-Time Testing System

There is no universal Instagram posting time that can responsibly be presented as the best for every account. Use your own account data.

1. Choose three testing windows: morning, afternoon and evening.
2. Keep the content objective and approximate content quality comparable.
3. Run the test across enough posts to avoid judging one isolated result.
4. Record reach, views, retention where available, shares, saves, profile visits, DMs, leads and sales.
5. Compare the same type of content against the same type of content where possible.
6. Keep a useful window only when the account data repeatedly supports it.
7. Re-test after major audience or content changes.

13. Instagram Platform Update

PLATFORM NOTE — CHECKED AUGUST 11, 2026. Instagram changes frequently and feature availability can vary by account, region and rollout. Verify the controls and metrics visible in your own Professional Dashboard before implementation.

Current feature / direction	How to use it in this guide	Important limitation
Trial Reels	Use for controlled experiments with new topics or formats before deciding whether to share more broadly.	Availability and exact controls can change; evaluate the actual Insights available to your account.
Reposts	Treat reposts as an additional distribution/relationship opportunity for public content and encourage genuine sharing when appropriate.	Do not build a strategy around reposts alone; the original content still needs a clear business purpose.
Professional Dashboard / Best Practices	Use the in-app educational guidance and personalized account signals as a current reference alongside this workbook.	Instagram updates the guidance and feature set; use the current dashboard when available.
Edits	Use for mobile-first Reel planning, editing, storyboarding and data-informed creative iteration.	Do not assume every feature or metric is available to every user.
Original-content recommendations	Prioritize original, useful content and avoid simply reposting other people's work without meaningful transformation or permission.	Recommendation eligibility is not the same thing as guaranteed reach.
Reels + DMs	Design discovery content with a path into conversation when a conversation is the appropriate business objective.	Views alone do not prove commercial value.

14. Instagram Search & Discoverability

- Research the exact customer questions and phrases used to describe the problem.
- Make the profile name and bio understandable to the customer and naturally relevant to the niche.
- Build content around specific customer questions instead of stuffing keywords into every caption.
- Use clear topic language in captions and on-screen text where it helps the audience understand the subject.

- Use spoken keywords naturally when relevant to the content.
- Use relevant hashtags as supporting context when useful, not as a substitute for a strong topic.
- Avoid keyword stuffing, irrelevant tags and awkward repetition.
- Review which topics consistently attract the right profile visits and conversations.

15. Reels Discovery System

Element	Practical rule
Topic	Choose a problem the target customer actually cares about.
Opening	Make the first moment clear enough that the viewer knows why the Reel matters.
Retention	Remove unnecessary pauses and make each section earn its place.
Visual movement	Use relevant scene, text, screen-recording or demonstration changes where they improve comprehension.
Teaching	Deliver one coherent lesson rather than five disconnected ideas.
Proof	Show the process, example, product or evidence when available.
CTA	Ask for one appropriate next action.
Testing	Test topic, hook, structure or format deliberately rather than changing everything at once.
Business metric	Judge commercial usefulness using profile visits, DMs, leads and sales as appropriate—not views alone.

16. Product-Page Conversion System

Element	What the page should answer
Headline	What problem or outcome is this for?
Problem	Does the buyer recognize their situation?
Outcome	What practical result is the resource designed to help with?
What's included	Exactly what does the buyer receive?
Preview	Can the buyer inspect enough of the product to judge fit?
Proof	What genuine evidence is available?
FAQ	What questions about fit, delivery, price or support remain?
Price / terms	What does it cost and what are the relevant terms?
Delivery	How and when does access happen?
CTA	What is the single next action?
Mobile experience	Can the page be understood and used comfortably on a phone?

17. Checkout Diagnostics

- High product-page visits + low checkout starts → inspect offer clarity, CTA, price presentation and trust.
- High checkout starts + low completed purchases → inspect payment friction, errors, payment options and unexpected steps.
- Many DMs asking the same question → add the answer to the product page or FAQ.
- Many objections about fit → improve positioning and who-the-product-is-for language.
- Repeated price objections → diagnose perceived value and fit before assuming the price alone is the problem.

18. Content-to-Revenue Tracking System

CONTENT → REACH → PROFILE VISIT → LEAD → QUALIFIED LEAD → SALE → REVENUE

The purpose of attribution is not to make every sale perfectly attributable. The purpose is to learn which content and pathways are repeatedly associated with useful business outcomes.

Source	Record
Reel	Topic / hook / date / profile visits / DMs / leads / sales.
Story	Sequence / sticker or reply / link click / DMs / leads.
Carousel	Topic / saves / shares / profile visits / DMs.
DM	Originating content or source / qualification / outcome.
Referral	Referrer / product / sale / repeat potential.
Collaboration	Partner / content / leads / sales.
Search	Topic / profile visits / relevant conversations.
Paid promotion	Campaign / creative / landing page / leads / sales.

19. Instagram Business Diagnostic System

Observed result	Check first	Next decision
Low reach	Topic, hook, format, content quality, relevance, consistency, recommendation eligibility.	Improve one discovery variable and test again.
High reach + low profile visits	CTA, relevance, curiosity, positioning bridge.	Make the next step more obvious and relevant.
High profile visits + low leads	Bio, offer, proof, link, landing page, CTA.	Repair profile/funnel before creating more reach.
High leads + low sales	Lead quality, offer, price, objections, trust, sales conversation, checkout.	Diagnose the conversion stage.
High sales + low repeat	Delivery, product quality, onboarding, follow-up, next-offer logic.	Improve customer experience and retention.

20. Customer Retention & Product Ladder

FREE CONTENT → ENTRY RESOURCE → CORE PRODUCT → ADVANCED PRODUCT → SERVICE / CONSULTING

This is an example product ladder, not a universal pricing structure. Build the next step only when it solves a logical customer problem.

- Deliver the purchased product clearly and quickly.
- Help the customer implement it.
- Collect genuine feedback.
- Identify the next problem the customer is likely to face.
- Create a complementary product or service only when the next need is real.
- Make repeat purchase useful, not merely promotional.

21. Collaboration Strategy

1. Find complementary creators or businesses whose audience overlaps with yours without being identical.
2. Identify a shared customer problem.
3. Create a clear mutual benefit.
4. Prepare a short proposal with the idea, audience benefit, format and CTA.
5. Publish collaborative content with a shared next action.
6. Track leads and sales from the collaboration.
7. Review whether the audience fit was actually useful before repeating the partnership.

22. Ethical DM & Follow-Up System

Situation	Response framework
“How much?”	Price + key inclusions + who it is for + offer to clarify fit.
“Send details.”	Outcome + inclusions + delivery + price + next step.
“I’ll think about it.”	Ask whether the uncertainty is fit, price, contents, delivery or another factor.
“It’s expensive.”	Acknowledge the concern; explain fit and value honestly; never pressure.
“Is it worth it?”	Explain who benefits and who may not need it.
“Can I trust this?”	Show genuine samples, previews, testimonials or verifiable evidence.
Stopped responding	One respectful check-in, then give space.

Respect a clear request to stop contacting someone. Follow-up is a service activity, not a license to crowd an inbox.

23. AI-Assisted Instagram System

AI can assist with	Human responsibility
Research and idea generation	Verify information and decide what matters.
Hooks and captions	Edit for specificity, truth, originality and voice.
Scripts and repurposing	Preserve the underlying insight and adapt it naturally.
FAQ analysis	Confirm that the questions actually come from customers.
Offer development	Use judgment about value, fit and feasibility.
Analytics interpretation	Use actual account data and business economics.

24. Common Mistakes & Solutions

Mistake	Correction
Posting without a strategy	Assign each content piece a purpose and customer stage.
Selling every day	Balance education, proof, engagement, connection and sales.
Copying competitors	Study patterns, then create original positioning and examples.
Generic content	Define customer, problem and outcome.
Weak hooks	Lead with a specific problem, contrast, mistake, question or useful promise.
No CTA	Give one useful next action.
Unclear profile	Make audience, problem, value and next step obvious.
Ignoring DMs	Treat questions as research, relationship and sales signals.
Failing to follow up	Use a respectful sequence.
Vanity-metric obsession	Track conversations, leads, conversion and sales.
Fake urgency / testimonials	Use only genuine evidence and deadlines.
Buying followers	Build relevant attention instead.
Relying entirely on AI	Add human judgment, experience and verification.
Creating before validating	Research the problem first.

PART II — THE 90-DAY COACHING PROGRAM

The original calendar is retained as the backbone, but its phases have been rebalanced into a stronger progression. The daily titles below preserve the source document's useful sequence while making the program more connected and decision-driven.

Phase	Days	Primary job
PHASE 1 — FOUNDATION & MARKET CLARITY	1–15	Build the commercial foundation before trying to scale attention: customer, problem, outcome, product, offer, profile, content pillars and baseline.
PHASE 2 — DISCOVERY & CONTENT ENGINE	16–30	Build a repeatable discovery engine using problem-led content, hooks, Reels, carousels, Stories, search/discoverability and structured testing.
PHASE 3 — AUTHORITY & TRUST	31–45	Turn attention into credibility through proof, demonstrations, customer language, objections, education and relationship-building.
PHASE 4 — LEAD GENERATION	46–60	Build the bridge from content to conversations, lead capture, qualification and a trackable DM/lead system.
PHASE 5 — SALES & CONVERSION	61–75	Turn qualified interest into purchases by improving offers, product communication, proof, objections, follow-up and conversion paths.
PHASE 6 — OPTIMIZATION	76–85	Diagnose bottlenecks, test one variable at a time, prune weak content and improve the parts of the funnel that matter most.
PHASE 7 — SCALE & NEXT 90 DAYS	86–90	Turn what worked into systems: collaboration, batching, product ladders, retention, referrals and the next evidence-led growth cycle.

PHASE 1 — FOUNDATION & MARKET CLARITY

Build the commercial foundation before trying to scale attention: customer, problem, outcome, product, offer, profile, content pillars and baseline.

PHASE COACHING RULE

Do not rush through this phase just to reach the next one. The purpose is to make the next stage easier by strengthening the stage before it.

DAY 1 — Define [TARGET CUSTOMER]

TODAY'S MISSION

Define the customer, problem and outcome that the rest of the system will communicate.

Coach's Briefing

Today we are choosing the person the rest of this system is built to serve. Be specific enough that you could recognize this customer in a real conversation, not just in a demographic description.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Starting point → customer clarity → offer clarity → content → conversations → sales → optimization.

Your Step-by-Step Action Plan

1. Establish the starting point: record the current account, profile, product, lead and sales baseline before making major changes.
2. Define today's decision: define [target customer]. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Define [PROBLEM].”

Exact Deliverable

A one-page target-customer profile with role, situation, problem, goal, buying context and customer language.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel

Topic	Teach one practical lesson connected to define [target customer] and the customer's next decision.
Hook	The clearer your customer, the easier it becomes to make relevant content.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Comment with the problem or outcome you most want help with.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — The clearer your customer, the easier it becomes to make relevant content.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Comment with the problem or outcome you most want help with.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Reach
- Saves
- Shares
- Profile visits
- DMs/leads where applicable

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF the result is weak → diagnose the specific stage of the funnel that failed rather than changing the whole strategy.

IF the result is weak → identify the exact stage that failed, change one meaningful variable and test again before abandoning the strategy.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.

Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.
- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 1

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Define one primary buyer for 90-Day Growth & Content Audit Workbook, not a broad audience.

Copy-and-Paste Template:

MY PRIMARY CUSTOMER: Small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales.

SITUATION: They are currently posting regularly without a clear customer-acquisition path.

PROBLEM THEY SAY: "I need a clearer way to move from what I am doing now to a result I can actually measure."

WHAT THEY WANT: A simple, measurable path from content to qualified conversations and sales.

BUYING CONTEXT: They are most likely to act when the problem is costing them time, missed opportunities or unnecessary complexity.

LANGUAGE TO LISTEN FOR: "Where do I start?", "What should I fix first?" and "Can you show me the exact process?"

CTA / Next Action: Comment with the one part of this problem you most want help solving.

Implementation: Put this profile into today's customer worksheet, then use the exact phrases you hear in future content.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Define one primary buyer for AI Workflow Starter Kit, not a broad audience.

Copy-and-Paste Template:

MY PRIMARY CUSTOMER: Small teams and freelancers who use ai inconsistently and waste time repeating manual tasks.

SITUATION: They are currently using AI as random prompts instead of a repeatable workflow.

PROBLEM THEY SAY: "I need a clearer way to move from what I am doing now to a result I can actually measure."

WHAT THEY WANT: A documented workflow that saves time while keeping human verification.

BUYING CONTEXT: They are most likely to act when the problem is costing them time, missed opportunities or unnecessary complexity.

LANGUAGE TO LISTEN FOR: “Where do I start?”, “What should I fix first?” and “Can you show me the exact process?”

CTA / Next Action: Comment with the one part of this problem you most want help solving.

Implementation: Put this profile into today's customer worksheet, then use the exact phrases you hear in future content.

EXAMPLE 3 — Website Design & SEO Studio

Business/Niche: Website Design & SEO Studio

Today's Objective: Define one primary buyer for Small Business Website Launch Checklist, not a broad audience.

Copy-and-Paste Template:

MY PRIMARY CUSTOMER: Small businesses that need a credible website but are unsure what pages, conversion elements and seo basics they need.

SITUATION: They are currently having an incomplete or unclear website that makes customers hesitate.

PROBLEM THEY SAY: “I need a clearer way to move from what I am doing now to a result I can actually measure.”

WHAT THEY WANT: A clear website structure that helps visitors understand, trust and take the next step.

BUYING CONTEXT: They are most likely to act when the problem is costing them time, missed opportunities or unnecessary complexity.

LANGUAGE TO LISTEN FOR: “Where do I start?”, “What should I fix first?” and “Can you show me the exact process?”

CTA / Next Action: Comment with the one part of this problem you most want help solving.

Implementation: Put this profile into today's customer worksheet, then use the exact phrases you hear in future content.

EXAMPLE 4 — Graphic Design Freelancer

Business/Niche: Graphic Design Freelancer

Today's Objective: Define one primary buyer for Client Design Workflow Kit, not a broad audience.

Copy-and-Paste Template:

MY PRIMARY CUSTOMER: Small brands and creators who need consistent, professional visual assets without a chaotic design process.

SITUATION: They are currently inconsistent branding and slow back-and-forth during design projects.

PROBLEM THEY SAY: “I need a clearer way to move from what I am doing now to a result I can actually measure.”

WHAT THEY WANT: A clearer design workflow with stronger briefs, revisions and delivery.

BUYING CONTEXT: They are most likely to act when the problem is costing them time, missed opportunities or unnecessary complexity.

LANGUAGE TO LISTEN FOR: “Where do I start?”, “What should I fix first?” and “Can you show me the exact process?”

CTA / Next Action: Comment with the one part of this problem you most want help solving.

Implementation: Put this profile into today's customer worksheet, then use the exact phrases you hear in future content.

EXAMPLE 5 — Online Course & Tutoring Business

Business/Niche: Online Course & Tutoring Business

Today's Objective: Define one primary buyer for Study & Skill Roadmap Workbook, not a broad audience.

Copy-and-Paste Template:

MY PRIMARY CUSTOMER: Learners who want a structured way to build a practical skill instead of consuming disconnected lessons.

SITUATION: They are currently studying without a clear practice path, feedback loop or measurable outcome.

PROBLEM THEY SAY: “I need a clearer way to move from what I am doing now to a result I can actually measure.”

WHAT THEY WANT: A guided learning path with practice, feedback and visible progress.

BUYING CONTEXT: They are most likely to act when the problem is costing them time, missed opportunities or unnecessary complexity.

LANGUAGE TO LISTEN FOR: “Where do I start?”, “What should I fix first?” and “Can you show me the exact process?”

CTA / Next Action: Comment with the one part of this problem you most want help solving.

Implementation: Put this profile into today's customer worksheet, then use the exact phrases you hear in future content.

EXAMPLE 6 — Digital Product & Template Seller

Business/Niche: Digital Product & Template Seller

Today's Objective: Define one primary buyer for Digital Product Launch Template Pack, not a broad audience.

Copy-and-Paste Template:

MY PRIMARY CUSTOMER: Busy creators and small businesses that want ready-to-use digital templates instead of starting every task from scratch.

SITUATION: They are currently wasting time creating repeatable business materials from a blank page.

PROBLEM THEY SAY: “I need a clearer way to move from what I am doing now to a result I can actually measure.”

WHAT THEY WANT: A ready-to-customize system that shortens setup time and improves consistency.

BUYING CONTEXT: They are most likely to act when the problem is costing them time, missed opportunities or unnecessary complexity.

LANGUAGE TO LISTEN FOR: “Where do I start?”, “What should I fix first?” and “Can you show me the exact process?”

CTA / Next Action: Comment with the one part of this problem you most want help solving.

Implementation: Put this profile into today's customer worksheet, then use the exact phrases you hear in future content.

DAY 2 — Define [PROBLEM]

TODAY'S MISSION

Define the customer, problem and outcome that the rest of the system will communicate.

Coach's Briefing

Today we are moving from a broad audience description to a problem you can actually investigate and solve. Use the customer's words wherever possible; do not invent pain because it sounds marketable.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Define [TARGET CUSTOMER].” Today we work on “Define [PROBLEM].” The next step is “Define [DESIRED OUTCOME].”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Define [TARGET CUSTOMER].” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: define [problem]. Write it in one sentence before you start creating.

3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Define [DESIRED OUTCOME].”

Exact Deliverable

A customer problem map with at least 5 recurring symptoms, causes, consequences and exact phrases.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to define [problem] and the customer's next decision.
Hook	If your customer cannot describe the problem clearly, your marketing will struggle to describe the solution.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Comment with the problem or outcome you most want help with.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — If your customer cannot describe the problem clearly, your marketing will struggle to describe the solution.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Comment with the problem or outcome you most want help with.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Reach
- Saves
- Shares
- Profile visits

- DMs/leads where applicable

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF the result is weak → diagnose the specific stage of the funnel that failed rather than changing the whole strategy.

IF the result is weak → identify the exact stage that failed, change one meaningful variable and test again before abandoning the strategy.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.
- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 2

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Turn a broad complaint into one observable customer problem.

Copy-and-Paste Template:

POST TEMPLATE:

“Small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales often tell me, ‘I am trying to a simple, measurable path from content to qualified conversations and sales, but I keep getting stuck.’

Here are three signs the real problem may be posting regularly without a clear customer-acquisition path:

1. The work starts without a clear next step.
 2. The same task has to be rebuilt repeatedly.
 3. Attention or effort is happening without a clear business outcome.
- Before you buy another tool or create another post, write down the exact point where the process breaks.”

CTA / Next Action: Comment with the exact point where your current process gets stuck.

Implementation: Replace only the quoted customer language with wording you actually hear; keep the symptoms tied to the real problem.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Turn a broad complaint into one observable customer problem.

Copy-and-Paste Template:

POST TEMPLATE:

“Small teams and freelancers who use ai inconsistently and waste time repeating manual tasks often tell me, ‘I am trying to a documented workflow that saves time while keeping human verification, but I keep getting stuck.’

Here are three signs the real problem may be using AI as random prompts instead of a repeatable workflow:

CTA / Next Action: Comment with the exact point where your current process gets stuck.

Implementation: Replace only the quoted customer language with wording you actually hear; keep the symptoms tied to the real problem.

DAY 3 — Define [DESIRED OUTCOME]

TODAY'S MISSION

Define the customer, problem and outcome that the rest of the system will communicate.

Coach's Briefing

Today we turn the problem into a concrete outcome. A useful outcome tells us what the customer wants to be able to do, change, complete or understand.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Define [PROBLEM].” Today we work on “Define [DESIRED OUTCOME].” The next step is “Audit the product.”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Define [PROBLEM].” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: define [desired outcome]. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Audit the product.”

Exact Deliverable

A one-sentence desired outcome plus three measurable signs that the outcome has been achieved.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to define [desired outcome] and the customer's next decision.
Hook	A useful offer starts with a result the customer can actually recognize.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Save this for your next planning session.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — A useful offer starts with a result the customer can actually recognize.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Save this for your next planning session.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Reach
- Saves
- Shares
- Profile visits
- DMs/leads where applicable

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF the result is weak → diagnose the specific stage of the funnel that failed rather than changing the whole strategy.

IF the result is weak → identify the exact stage that failed, change one meaningful variable and test again before abandoning the strategy.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.
- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 3

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Express the desired outcome as something the buyer can recognize and verify.

Copy-and-Paste Template:

OUTCOME STATEMENT:

“Help small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales move from posting regularly without a clear customer-acquisition path to a simple, measurable path from content to qualified conversations and sales.

You will know the outcome is becoming real when:

- you can explain the next step without guessing;
- the workflow is documented;
- you can point to a completed result rather than more information.”

CTA / Next Action: Save this and rewrite your own outcome in one sentence.

Implementation: Use the three signs as the success criteria in your workbook; do not promise a guaranteed commercial result.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Express the desired outcome as something the buyer can recognize and verify.

Copy-and-Paste Template:

OUTCOME STATEMENT:

“Help small teams and freelancers who use AI inconsistently and waste time repeating manual tasks move from using AI as random prompts instead of a repeatable workflow to a documented workflow that saves time while keeping human verification.

You will know the outcome is becoming real when:

- you can explain the next step without guessing;
- the workflow is documented;
- you can point to a completed result rather than more information.”

CTA / Next Action: Save this and rewrite your own outcome in one sentence.

Implementation: Use the three signs as the success criteria in your workbook; do not promise a guaranteed commercial result.

EXAMPLE 3 — Website Design & SEO Studio

Business/Niche: Website Design & SEO Studio

Today's Objective: Express the desired outcome as something the buyer can recognize and verify.

Copy-and-Paste Template:

OUTCOME STATEMENT:

“Help small businesses that need a credible website but are unsure what pages, conversion elements and SEO basics they need move from having an incomplete or unclear website that makes customers hesitate to a clear website structure that helps visitors understand, trust and take the next step.

You will know the outcome is becoming real when:

- you can explain the next step without guessing;
- the workflow is documented;
- you can point to a completed result rather than more information.”

CTA / Next Action: Save this and rewrite your own outcome in one sentence.

Implementation: Use the three signs as the success criteria in your workbook; do not promise a guaranteed commercial result.

EXAMPLE 4 — Graphic Design Freelancer

Business/Niche: Graphic Design Freelancer

Today's Objective: Express the desired outcome as something the buyer can recognize and verify.

Copy-and-Paste Template:

OUTCOME STATEMENT:

“Help small brands and creators who need consistent, professional visual assets without a chaotic design process move from inconsistent branding and slow back-and-forth during design projects to a clearer design workflow with stronger briefs, revisions and delivery.

You will know the outcome is becoming real when:

- you can explain the next step without guessing;
- the workflow is documented;
- you can point to a completed result rather than more information.”

CTA / Next Action: Save this and rewrite your own outcome in one sentence.

Implementation: Use the three signs as the success criteria in your workbook; do not promise a guaranteed commercial result.

EXAMPLE 5 — Online Course & Tutoring Business

Business/Niche: Online Course & Tutoring Business

Today's Objective: Express the desired outcome as something the buyer can recognize and verify.

Copy-and-Paste Template:

OUTCOME STATEMENT:

“Help learners who want a structured way to build a practical skill instead of consuming disconnected lessons move from studying without a clear practice path, feedback loop or measurable outcome to a guided learning path with practice, feedback and visible progress.

You will know the outcome is becoming real when:

- you can explain the next step without guessing;
- the workflow is documented;
- you can point to a completed result rather than more information.”

CTA / Next Action: Save this and rewrite your own outcome in one sentence.

Implementation: Use the three signs as the success criteria in your workbook; do not promise a guaranteed commercial result.

EXAMPLE 6 — Digital Product & Template Seller

Business/Niche: Digital Product & Template Seller

Today's Objective: Express the desired outcome as something the buyer can recognize and verify.

Copy-and-Paste Template:

OUTCOME STATEMENT:

“Help busy creators and small businesses that want ready-to-use digital templates instead of starting every task from scratch move from wasting time creating repeatable business materials from a blank page to a ready-to-customize system that shortens setup time and improves consistency.

You will know the outcome is becoming real when:

- you can explain the next step without guessing;
- the workflow is documented;
- you can point to a completed result rather than more information.”

CTA / Next Action: Save this and rewrite your own outcome in one sentence.

Implementation: Use the three signs as the success criteria in your workbook; do not promise a guaranteed commercial result.

DAY 4 — Audit the product

TODAY'S MISSION

Audit the product against customer need, outcome, implementation and evidence.

Coach's Briefing

Today we stop assuming the product is ready and inspect it against the customer's problem, promised outcome, usability and evidence. Fix the weakest link before adding more promotion.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Define [DESIRED OUTCOME].” Today we work on “Audit the product.” The next step is “Build the value proposition.”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Define [DESIRED OUTCOME].” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: audit the product. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Build the value proposition.”

Exact Deliverable

A product audit showing core outcome, inclusions, gaps, proof, delivery and customer fit.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to audit the product and the customer's next decision.
Hook	Use audit the product to create a specific customer or business outcome.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Save this for your next planning session.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — Use audit the product to create a specific customer or business outcome.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Save this for your next planning session.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Reach
- Saves
- Shares
- Profile visits
- DMs/leads where applicable

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

If the result is weak → diagnose the specific stage of the funnel that failed rather than changing the whole strategy.

If the result is weak → identify the exact stage that failed, change one meaningful variable and test again before abandoning the strategy.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.

- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 4

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Audit whether the product actually helps the customer reach the stated outcome.

Copy-and-Paste Template:

PRODUCT AUDIT — 90-Day Growth & Content Audit Workbook

Core outcome: a simple, measurable path from content to qualified conversations and sales.

Included: practical instructions, examples/templates, an implementation checklist and a clear next step.

Check before publishing: Does every major section help with posting regularly without a clear customer-acquisition path? Is the first useful action obvious? Can the buyer preview the quality? Is delivery clear?

FIX FIRST: If a buyer can read the title but still cannot explain what they will be able to do after using it, rewrite the product's internal outcome—not the whole product.

CTA / Next Action: Reply AUDIT if you want a simple product-audit checklist.

Implementation: Use this as an internal audit entry; mark each item pass, needs work or not applicable.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Audit whether the product actually helps the customer reach the stated outcome.

Copy-and-Paste Template:

PRODUCT AUDIT — AI Workflow Starter Kit

Core outcome: a documented workflow that saves time while keeping human verification.

Included: practical instructions, examples/templates, an implementation checklist and a clear next step.

Check before publishing: Does every major section help with using AI as random prompts instead of a repeatable workflow? Is the first useful action obvious? Can the buyer preview the quality? Is delivery clear?

FIX FIRST: If a buyer can read the title but still cannot explain what they will be able to do after using it, rewrite the product's internal outcome—not the whole product.

CTA / Next Action: Reply AUDIT if you want a simple product-audit checklist.

Implementation: Use this as an internal audit entry; mark each item pass, needs work or not applicable.

EXAMPLE 3 — Website Design & SEO Studio

Business/Niche: Website Design & SEO Studio

Today's Objective: Audit whether the product actually helps the customer reach the stated outcome.

Copy-and-Paste Template:

PRODUCT AUDIT — Small Business Website Launch Checklist

Core outcome: a clear website structure that helps visitors understand, trust and take the next step.

Included: practical instructions, examples/templates, an implementation checklist and a clear next step.

Check before publishing: Does every major section help with having an incomplete or unclear website that makes customers hesitate? Is the first useful action obvious? Can the buyer preview the quality? Is delivery clear?

FIX FIRST: If a buyer can read the title but still cannot explain what they will be able to do after using it, rewrite the product's internal outcome—not the whole product.

CTA / Next Action: Reply AUDIT if you want a simple product-audit checklist.

Implementation: Use this as an internal audit entry; mark each item pass, needs work or not applicable.

EXAMPLE 4 — Graphic Design Freelancer

Business/Niche: Graphic Design Freelancer

Today's Objective: Audit whether the product actually helps the customer reach the stated outcome.

Copy-and-Paste Template:

PRODUCT AUDIT — Client Design Workflow Kit

Core outcome: a clearer design workflow with stronger briefs, revisions and delivery.

Included: practical instructions, examples/templates, an implementation checklist and a clear next step.

Check before publishing: Does every major section help with inconsistent branding and slow back-and-forth during design projects? Is the first useful action obvious? Can the buyer preview the quality? Is delivery clear?

FIX FIRST: If a buyer can read the title but still cannot explain what they will be able to do after using it, rewrite the product's internal outcome—not the whole product.

CTA / Next Action: Reply AUDIT if you want a simple product-audit checklist.

Implementation: Use this as an internal audit entry; mark each item pass, needs work or not applicable.

EXAMPLE 5 — Online Course & Tutoring Business

Business/Niche: Online Course & Tutoring Business

Today's Objective: Audit whether the product actually helps the customer reach the stated outcome.

Copy-and-Paste Template:

PRODUCT AUDIT — Study & Skill Roadmap Workbook

Core outcome: a guided learning path with practice, feedback and visible progress.

Included: practical instructions, examples/templates, an implementation checklist and a clear next step.

Check before publishing: Does every major section help with studying without a clear practice path, feedback loop or measurable outcome? Is the first useful action obvious? Can the buyer preview the quality? Is delivery clear?

FIX FIRST: If a buyer can read the title but still cannot explain what they will be able to do after using it, rewrite the product's internal outcome—not the whole product.

CTA / Next Action: Reply AUDIT if you want a simple product-audit checklist.

Implementation: Use this as an internal audit entry; mark each item pass, needs work or not applicable.

EXAMPLE 6 — Digital Product & Template Seller

Business/Niche: Digital Product & Template Seller

Today's Objective: Audit whether the product actually helps the customer reach the stated outcome.

Copy-and-Paste Template:

PRODUCT AUDIT — Digital Product Launch Template Pack

Core outcome: a ready-to-customize system that shortens setup time and improves consistency.

Included: practical instructions, examples/templates, an implementation checklist and a clear next step.

Check before publishing: Does every major section help with wasting time creating repeatable business materials from a blank page? Is the first useful action obvious? Can the buyer preview the quality? Is delivery clear?

FIX FIRST: If a buyer can read the title but still cannot explain what they will be able to do after using it, rewrite the product's internal outcome—not the whole product.

CTA / Next Action: Reply AUDIT if you want a simple product-audit checklist.

Implementation: Use this as an internal audit entry; mark each item pass, needs work or not applicable.

DAY 5 — Build the value proposition

TODAY'S MISSION

Translate the product into a clear customer-facing value proposition.

Coach's Briefing

Today we make the offer understandable in one breath. If a relevant visitor cannot quickly tell who it is for, what problem it addresses and why it is useful, the wording needs more work.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Audit the product.” Today we work on “Build the value proposition.” The next step is “Optimize the profile.”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Audit the product.” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: build the value proposition. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Optimize the profile.”

Exact Deliverable

Three value-proposition versions; choose the clearest one.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to build the value proposition and the customer's next decision.
Hook	If someone cannot understand the value in one sentence, the offer needs clearer positioning.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Save this for your next planning session.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or

decision clearly; avoid covering the design with unnecessary text.
--

Exact Content Template

Slide 1 — If someone cannot understand the value in one sentence, the offer needs clearer positioning.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Save this for your next planning session.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Reach
- Saves
- Shares
- Profile visits
- DMs/leads where applicable

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF the result is weak → diagnose the specific stage of the funnel that failed rather than changing the whole strategy.

IF the result is weak → identify the exact stage that failed, change one meaningful variable and test again before abandoning the strategy.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.
- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 5

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Create a one-breath value proposition that names audience, problem and outcome.

Copy-and-Paste Template:

VALUE PROPOSITION OPTIONS FOR 90-Day Growth & Content Audit Workbook:

1. "A practical resource for small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales who want to stop posting regularly without a clear customer-acquisition path and build a simple, measurable path from content to qualified conversations and sales."
2. "If posting regularly without a clear customer-acquisition path is slowing you down, 90-Day Growth & Content Audit Workbook gives you a clear process, ready-to-use guidance and an implementation path toward a simple, measurable path from content to qualified conversations and sales."
3. "Stop guessing what to do next. Use 90-Day Growth & Content Audit Workbook to organize the steps from the current problem to a usable result."

CTA / Next Action: Save the clearest version and test it in your bio, landing page or next sales post.

Implementation: Ask one person from the target audience to explain what the offer does after reading it once. If they cannot, simplify.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Create a one-breath value proposition that names audience, problem and outcome.

Copy-and-Paste Template:

VALUE PROPOSITION OPTIONS FOR AI Workflow Starter Kit:

1. "A practical resource for small teams and freelancers who use AI inconsistently and waste time repeating manual tasks who want to stop using AI as random prompts instead of a repeatable workflow and build a documented workflow that saves time while keeping human verification."
2. "If using AI as random prompts instead of a repeatable workflow is slowing you down, AI Workflow Starter Kit gives you a clear process, ready-to-use guidance and an implementation path toward a documented workflow that saves time while keeping human verification."
3. "Stop guessing what to do next. Use AI Workflow Starter Kit to organize the steps from the current problem to a usable result."

CTA / Next Action: Save the clearest version and test it in your bio, landing page or next sales post.

Implementation: Ask one person from the target audience to explain what the offer does after reading it once. If they cannot, simplify.

EXAMPLE 3 — Website Design & SEO Studio

Business/Niche: Website Design & SEO Studio

Today's Objective: Create a one-breath value proposition that names audience, problem and outcome.

Copy-and-Paste Template:

VALUE PROPOSITION OPTIONS FOR Small Business Website Launch Checklist:

1. “A practical resource for small businesses that need a credible website but are unsure what pages, conversion elements and SEO basics they need who want to stop having an incomplete or unclear website that makes customers hesitate and build a clear website structure that helps visitors understand, trust and take the next step.”
2. “If having an incomplete or unclear website that makes customers hesitate is slowing you down, Small Business Website Launch Checklist gives you a clear process, ready-to-use guidance and an implementation path toward a clear website structure that helps visitors understand, trust and take the next step.”
3. “Stop guessing what to do next. Use Small Business Website Launch Checklist to organize the steps from the current problem to a usable result.”

CTA / Next Action: Save the clearest version and test it in your bio, landing page or next sales post.

Implementation: Ask one person from the target audience to explain what the offer does after reading it once. If they cannot, simplify.

EXAMPLE 4 — Graphic Design Freelancer

Business/Niche: Graphic Design Freelancer

Today's Objective: Create a one-breath value proposition that names audience, problem and outcome.

Copy-and-Paste Template:

VALUE PROPOSITION OPTIONS FOR Client Design Workflow Kit:

1. “A practical resource for small brands and creators who need consistent, professional visual assets without a chaotic design process who want to stop inconsistent branding and slow back-and-forth during design projects and build a clearer design workflow with stronger briefs, revisions and delivery.”
2. “If inconsistent branding and slow back-and-forth during design projects is slowing you down, Client Design Workflow Kit gives you a clear process, ready-to-use guidance and an implementation path toward a clearer design workflow with stronger briefs, revisions and delivery.”
3. “Stop guessing what to do next. Use Client Design Workflow Kit to organize the steps from the current problem to a usable result.”

CTA / Next Action: Save the clearest version and test it in your bio, landing page or next sales post.

Implementation: Ask one person from the target audience to explain what the offer does after reading it once. If they cannot, simplify.

EXAMPLE 5 — Online Course & Tutoring Business

Business/Niche: Online Course & Tutoring Business

Today's Objective: Create a one-breath value proposition that names audience, problem and outcome.

Copy-and-Paste Template:

VALUE PROPOSITION OPTIONS FOR Study & Skill Roadmap Workbook:

1. “A practical resource for learners who want a structured way to build a practical skill instead of consuming disconnected lessons who want to stop studying without a clear practice path, feedback loop or measurable outcome and build a guided learning path with practice, feedback and visible progress.”
2. “If studying without a clear practice path, feedback loop or measurable outcome is slowing you down, Study & Skill Roadmap Workbook gives you a clear process, ready-to-use guidance and an implementation path toward a guided learning path with practice, feedback and visible progress.”
3. “Stop guessing what to do next. Use Study & Skill Roadmap Workbook to organize the steps from the current problem to a usable result.”

CTA / Next Action: Save the clearest version and test it in your bio, landing page or next sales post.

Implementation: Ask one person from the target audience to explain what the offer does after reading it once. If they cannot, simplify.

EXAMPLE 6 — Digital Product & Template Seller

Business/Niche: Digital Product & Template Seller

Today's Objective: Create a one-breath value proposition that names audience, problem and outcome.

Copy-and-Paste Template:

VALUE PROPOSITION OPTIONS FOR Digital Product Launch Template Pack:

1. “A practical resource for busy creators and small businesses that want ready-to-use digital templates instead of starting every task from scratch who want to stop wasting time creating repeatable business materials from a blank page and build a ready-to-customize system that shortens setup time and improves consistency.”
2. “If wasting time creating repeatable business materials from a blank page is slowing you down, Digital Product Launch Template Pack gives you a clear process, ready-to-use guidance and an implementation path toward a ready-to-customize system that shortens setup time and improves consistency.”
3. “Stop guessing what to do next. Use Digital Product Launch Template Pack to organize the steps from the current problem to a usable result.”

CTA / Next Action: Save the clearest version and test it in your bio, landing page or next sales post.

Implementation: Ask one person from the target audience to explain what the offer does after reading it once. If they cannot, simplify.

DAY 6 — Optimize the profile

TODAY'S MISSION

Improve the Instagram profile so a relevant visitor understands the account and next step.

Coach's Briefing

Today we repair the bridge between discovery and action. A strong post can still waste attention if the profile does not explain who you help, what you help with and what the visitor should do next.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Build the value proposition.” Today we work on “Optimize the profile.” The next step is “Create content pillars.”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Build the value proposition.” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: optimize the profile. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.

5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Create content pillars.”

Exact Deliverable

An optimized profile draft: name, bio, CTA, link destination, highlights and pinned-post plan.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to optimize the profile and the customer's next decision.
Hook	A strong post can still waste attention if the profile does not explain what happens next.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Visit the profile and check whether the next step is obvious.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — A strong post can still waste attention if the profile does not explain what happens next.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Visit the profile and check whether the next step is obvious.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Profile visits
- Website/link clicks
- DM inquiries
- Follows from relevant visitors

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF profile visits are high but clicks/DMs are low → rewrite the bio, pinned posts, proof and CTA.

IF profile visits are high but leads are low → inspect the bio, pinned posts, proof, offer and destination. Do not solve a profile problem by posting more.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.
- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 6

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Make the Instagram profile explain who you help, what you solve and the next action.

Copy-and-Paste Template:

PROFILE DRAFT

Name: Business Growth & Digital Marketing Consultant

Bio: "I help small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales. Practical systems for posting regularly without a clear customer-acquisition path. Get the 90-Day Growth & Content Audit Workbook ↓"

Primary link: 90-Day Growth & Content Audit Workbook / start-here page

Pinned Post 1: Who this is for

Pinned Post 2: The problem + practical framework

Pinned Post 3: Product preview / genuine proof

Highlights: Start Here | Resources | FAQ | Proof | About

CTA / Next Action: Visit your profile as a stranger and ask: "Do I know who this is for and what I should do next?"

Implementation: Paste the draft into your profile planning worksheet and replace only claims you can substantiate.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Make the Instagram profile explain who you help, what you solve and the next action.

Business/Niche: Digital Product & Template Seller

Today's Objective: Make the Instagram profile explain who you help, what you solve and the next action.

Copy-and-Paste Template:

PROFILE DRAFT

Name: Digital Product & Template Seller

Bio: "I help busy creators and small businesses that want ready-to-use digital templates instead of starting every task from scratch. Practical systems for wasting time creating repeatable business materials from a blank page. Get the Digital Product Launch Template Pack ↓"

Primary link: Digital Product Launch Template Pack / start-here page

Pinned Post 1: Who this is for

Pinned Post 2: The problem + practical framework

Pinned Post 3: Product preview / genuine proof

Highlights: Start Here | Resources | FAQ | Proof | About

CTA / Next Action: Visit your profile as a stranger and ask: "Do I know who this is for and what I should do next?"

Implementation: Paste the draft into your profile planning worksheet and replace only claims you can substantiate.

DAY 7 — Create content pillars

TODAY'S MISSION

Create a manageable set of content pillars tied to business objectives.

Coach's Briefing

Today we are creating the content architecture. Choose pillars because they repeatedly solve customer problems and support business objectives, not because they sound impressive.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Optimize the profile.” Today we work on “Create content pillars.” The next step is “Create the first content bank.”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Optimize the profile.” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: create content pillars. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Create the first content bank.”

Exact Deliverable

Four to six content pillars mapped to customer stages and business objectives.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to create content pillars and the customer's next decision.
Hook	Stop asking “What should I post?” and start with “What customer problem am I helping with?”
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Save this for your next planning session.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — Stop asking “What should I post?” and start with “What customer problem am I helping with?”

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Save this for your next planning session.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Reach
- Views
- Shares
- Saves
- Profile visits
- Relevant comments/DMs

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF reach is weak → test the topic and hook. IF reach is strong but profile visits are weak → strengthen relevance and the profile bridge.

IF the result is weak → identify the exact stage that failed, change one meaningful variable and test again before abandoning the strategy.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.
- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

WEEK 1 COACHING REVIEW

Stop here before moving into the next seven-day block. This review is part of the program, not optional paperwork.

Review area	Your evidence / decision
What We Tested	
What Worked	
What Failed	
What We Learned	
Best Performing Content	
Best Lead Source	
Best Sales Source	
Biggest Bottleneck	
What We Will Change Next Week	
Coach's Recommendation	

WEEKLY DECISION RULE

Choose no more than 1–3 meaningful changes for the next week. More changes make it harder to know what caused the result.

SIX-NICHE PRACTICAL EXAMPLES — DAY 7

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Build five content pillars that serve both customer education and business objectives.

Copy-and-Paste Template:

CONTENT PILLARS FOR Business Growth & Digital Marketing Consultant

1. Diagnose — content about posting regularly without a clear customer-acquisition path.
2. Teach — short lessons that help small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales take a useful first step.
3. Demonstrate — show how 90-Day Growth & Content Audit Workbook or business growth audit and implementation consulting is used.
4. Prove — genuine samples, process evidence or customer feedback.
5. Convert — explain fit, inclusions, objections and the next step.

Weekly example: Diagnose Monday → Teach Tuesday → Demonstrate Wednesday → Prove Thursday → Convert Friday.

CTA / Next Action: Save these five pillars and use them to plan your next week's content.

Implementation: Do not treat the five pillars as five daily sales pitches; assign each a clear customer-stage purpose.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Build five content pillars that serve both customer education and business objectives.

Copy-and-Paste Template:

CONTENT PILLARS FOR AI Productivity & Automation Consultant

1. Diagnose — content about using AI as random prompts instead of a repeatable workflow.
2. Teach — short lessons that help small teams and freelancers who use AI inconsistently and waste time repeating manual tasks take a useful first step.
3. Demonstrate — show how AI Workflow Starter Kit or AI workflow setup and automation consulting is used.
4. Prove — genuine samples, process evidence or customer feedback.
5. Convert — explain fit, inclusions, objections and the next step.

Weekly example: Diagnose Monday → Teach Tuesday → Demonstrate Wednesday → Prove Thursday → Convert Friday.

CTA / Next Action: Save these five pillars and use them to plan your next week's content.

Implementation: Do not treat the five pillars as five daily sales pitches; assign each a clear customer-stage purpose.

EXAMPLE 3 — Website Design & SEO Studio

Business/Niche: Website Design & SEO Studio

Today's Objective: Build five content pillars that serve both customer education and business objectives.

Copy-and-Paste Template:

CONTENT PILLARS FOR Website Design & SEO Studio

1. Diagnose — content about having an incomplete or unclear website that makes customers hesitate.
2. Teach — short lessons that help small businesses that need a credible website but are unsure what pages, conversion elements and SEO basics they need take a useful first step.
3. Demonstrate — show how Small Business Website Launch Checklist or website design and SEO setup is used.
4. Prove — genuine samples, process evidence or customer feedback.
5. Convert — explain fit, inclusions, objections and the next step.

Weekly example: Diagnose Monday → Teach Tuesday → Demonstrate Wednesday → Prove Thursday → Convert Friday.

CTA / Next Action: Save these five pillars and use them to plan your next week's content.

Implementation: Do not treat the five pillars as five daily sales pitches; assign each a clear customer-stage purpose.

EXAMPLE 4 — Graphic Design Freelancer

Business/Niche: Graphic Design Freelancer

Today's Objective: Build five content pillars that serve both customer education and business objectives.

Copy-and-Paste Template:

CONTENT PILLARS FOR Graphic Design Freelancer

1. Diagnose — content about inconsistent branding and slow back-and-forth during design projects.
2. Teach — short lessons that help small brands and creators who need consistent, professional visual assets without a chaotic design process take a useful first step.
3. Demonstrate — show how Client Design Workflow Kit or brand and social-media design is used.
4. Prove — genuine samples, process evidence or customer feedback.
5. Convert — explain fit, inclusions, objections and the next step.

Weekly example: Diagnose Monday → Teach Tuesday → Demonstrate Wednesday → Prove Thursday → Convert Friday.

CTA / Next Action: Save these five pillars and use them to plan your next week's content.

Implementation: Do not treat the five pillars as five daily sales pitches; assign each a clear customer-stage purpose.

EXAMPLE 5 — Online Course & Tutoring Business

Business/Niche: Online Course & Tutoring Business

Today's Objective: Build five content pillars that serve both customer education and business objectives.

Copy-and-Paste Template:

CONTENT PILLARS FOR Online Course & Tutoring Business

1. Diagnose — content about studying without a clear practice path, feedback loop or measurable outcome.
2. Teach — short lessons that help learners who want a structured way to build a practical skill instead of consuming disconnected lessons take a useful first step.
3. Demonstrate — show how Study & Skill Roadmap Workbook or online course and tutoring program is used.
4. Prove — genuine samples, process evidence or customer feedback.
5. Convert — explain fit, inclusions, objections and the next step.

Weekly example: Diagnose Monday → Teach Tuesday → Demonstrate Wednesday → Prove Thursday → Convert Friday.

CTA / Next Action: Save these five pillars and use them to plan your next week's content.

Implementation: Do not treat the five pillars as five daily sales pitches; assign each a clear customer-stage purpose.

EXAMPLE 6 — Digital Product & Template Seller

Business/Niche: Digital Product & Template Seller

Today's Objective: Build five content pillars that serve both customer education and business objectives.

Copy-and-Paste Template:

CONTENT PILLARS FOR Digital Product & Template Seller

1. Diagnose — content about wasting time creating repeatable business materials from a blank page.
2. Teach — short lessons that help busy creators and small businesses that want ready-to-use digital templates instead of starting every task from scratch take a useful first step.
3. Demonstrate — show how Digital Product Launch Template Pack or template customization and digital-product support is used.
4. Prove — genuine samples, process evidence or customer feedback.
5. Convert — explain fit, inclusions, objections and the next step.

Weekly example: Diagnose Monday → Teach Tuesday → Demonstrate Wednesday → Prove Thursday → Convert Friday.

CTA / Next Action: Save these five pillars and use them to plan your next week's content.

Implementation: Do not treat the five pillars as five daily sales pitches; assign each a clear customer-stage purpose.

DAY 8 — Create the first content bank

TODAY'S MISSION

Build a reusable bank of topics, hooks and content angles.

Coach's Briefing

Today we build inventory before you need it. Organize problems, questions, proof, objections and offers into usable content angles.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Create content pillars.” Today we work on “Create the first content bank.” The next step is “Create the lead path.”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Create content pillars.” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: create the first content bank. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.

6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Create the lead path.”

Exact Deliverable

A 30-topic content bank with hooks and intended formats.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to create the first content bank and the customer's next decision.
Hook	Do not wait until posting day to invent the idea; build your inventory from real customer problems.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Save this for your next planning session.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — Do not wait until posting day to invent the idea; build your inventory from real customer problems.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Save this for your next planning session.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Reach
- Views
- Shares
- Saves
- Profile visits
- Relevant comments/DMs

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF reach is weak → test the topic and hook. IF reach is strong but profile visits are weak → strengthen relevance and the profile bridge.

IF the result is weak → identify the exact stage that failed, change one meaningful variable and test again before abandoning the strategy.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.
- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 8

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Create a ready-to-use bank of content ideas around one customer problem.

Copy-and-Paste Template:

7-IDEA CONTENT BANK — posting regularly without a clear customer-acquisition path

1. “3 signs you are dealing with posting regularly without a clear customer-acquisition path.”
2. “The first thing I check before recommending a solution.”
3. “A common mistake small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales make when trying to a simple, measurable path from content to qualified conversations and sales.”
4. “Before/after: what changes when the process is documented.”
5. “A 5-minute quick win for small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales.”
6. “FAQ: Do I really need 90-Day Growth & Content Audit Workbook?”
7. “Behind the scenes: how I turn a messy problem into a usable system.”

CTA / Next Action: Save this bank and turn one idea into today's post.

Implementation: Put each idea into the content tracker with a pillar, format and intended customer stage.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Create a ready-to-use bank of content ideas around one customer problem.

Copy-and-Paste Template:

7-IDEA CONTENT BANK — using AI as random prompts instead of a repeatable workflow

1. "3 signs you are dealing with using AI as random prompts instead of a repeatable workflow."
2. "The first thing I check before recommending a solution."
3. "A common mistake small teams and freelancers who use AI inconsistently and waste time repeating manual tasks make when trying to a documented workflow that saves time while keeping human verification."
4. "Before/after: what changes when the process is documented."
5. "A 5-minute quick win for small teams and freelancers who use AI inconsistently and waste time repeating manual tasks."
6. "FAQ: Do I really need AI Workflow Starter Kit?"
7. "Behind the scenes: how I turn a messy problem into a usable system."

CTA / Next Action: Save this bank and turn one idea into today's post.

Implementation: Put each idea into the content tracker with a pillar, format and intended customer stage.

EXAMPLE 3 — Website Design & SEO Studio

Business/Niche: Website Design & SEO Studio

Today's Objective: Create a ready-to-use bank of content ideas around one customer problem.

Copy-and-Paste Template:

7-IDEA CONTENT BANK — having an incomplete or unclear website that makes customers hesitate

1. "3 signs you are dealing with having an incomplete or unclear website that makes customers hesitate."
2. "The first thing I check before recommending a solution."
3. "A common mistake small businesses that need a credible website but are unsure what pages, conversion elements and SEO basics they need make when trying to a clear website structure that helps visitors understand, trust and take the next step."
4. "Before/after: what changes when the process is documented."
5. "A 5-minute quick win for small businesses that need a credible website but are unsure what pages, conversion elements and SEO basics they need."
6. "FAQ: Do I really need Small Business Website Launch Checklist?"
7. "Behind the scenes: how I turn a messy problem into a usable system."

CTA / Next Action: Save this bank and turn one idea into today's post.

Implementation: Put each idea into the content tracker with a pillar, format and intended customer stage.

EXAMPLE 4 — Graphic Design Freelancer

Business/Niche: Graphic Design Freelancer

Today's Objective: Create a ready-to-use bank of content ideas around one customer problem.

Copy-and-Paste Template:

7-IDEA CONTENT BANK — inconsistent branding and slow back-and-forth during design projects

1. "3 signs you are dealing with inconsistent branding and slow back-and-forth during design projects."
2. "The first thing I check before recommending a solution."
3. "A common mistake small brands and creators who need consistent, professional visual assets without a chaotic design process make when trying to a clearer design workflow with stronger briefs, revisions and delivery."
4. "Before/after: what changes when the process is documented."
5. "A 5-minute quick win for small brands and creators who need consistent, professional visual assets without a chaotic design process."

6. “FAQ: Do I really need Client Design Workflow Kit?”
7. “Behind the scenes: how I turn a messy problem into a usable system.”

CTA / Next Action: Save this bank and turn one idea into today's post.

Implementation: Put each idea into the content tracker with a pillar, format and intended customer stage.

EXAMPLE 5 — Online Course & Tutoring Business

Business/Niche: Online Course & Tutoring Business

Today's Objective: Create a ready-to-use bank of content ideas around one customer problem.

Copy-and-Paste Template:

7-IDEA CONTENT BANK — studying without a clear practice path, feedback loop or measurable outcome

1. “3 signs you are dealing with studying without a clear practice path, feedback loop or measurable outcome.”
2. “The first thing I check before recommending a solution.”
3. “A common mistake learners who want a structured way to build a practical skill instead of consuming disconnected lessons make when trying to a guided learning path with practice, feedback and visible progress.”
4. “Before/after: what changes when the process is documented.”
5. “A 5-minute quick win for learners who want a structured way to build a practical skill instead of consuming disconnected lessons.”
6. “FAQ: Do I really need Study & Skill Roadmap Workbook?”
7. “Behind the scenes: how I turn a messy problem into a usable system.”

CTA / Next Action: Save this bank and turn one idea into today's post.

Implementation: Put each idea into the content tracker with a pillar, format and intended customer stage.

EXAMPLE 6 — Digital Product & Template Seller

Business/Niche: Digital Product & Template Seller

Today's Objective: Create a ready-to-use bank of content ideas around one customer problem.

Copy-and-Paste Template:

7-IDEA CONTENT BANK — wasting time creating repeatable business materials from a blank page

1. “3 signs you are dealing with wasting time creating repeatable business materials from a blank page.”
2. “The first thing I check before recommending a solution.”
3. “A common mistake busy creators and small businesses that want ready-to-use digital templates instead of starting every task from scratch make when trying to a ready-to-customize system that shortens setup time and improves consistency.”
4. “Before/after: what changes when the process is documented.”
5. “A 5-minute quick win for busy creators and small businesses that want ready-to-use digital templates instead of starting every task from scratch.”
6. “FAQ: Do I really need Digital Product Launch Template Pack?”
7. “Behind the scenes: how I turn a messy problem into a usable system.”

CTA / Next Action: Save this bank and turn one idea into today's post.

Implementation: Put each idea into the content tracker with a pillar, format and intended customer stage.

DAY 9 — Create the lead path

TODAY'S MISSION

Create a low-friction path from content to the next customer action.

Coach's Briefing

Today we connect content to a measurable next step. Trace the path yourself from post to profile, DM or link, then to lead and offer.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Create the first content bank.” Today we work on “Create the lead path.” The next step is “Baseline measurement.”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Create the first content bank.” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: create the lead path. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Baseline measurement.”

Exact Deliverable

A tested path from content → profile/DM/link → lead → offer.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to create the lead path and the customer's next decision.
Hook	Every CTA needs a destination—and every destination needs a next step.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Save this for your next planning session.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — Every CTA needs a destination—and every destination needs a next step.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Save this for your next planning session.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- DM conversations
- Qualified leads
- Lead source
- Next-step rate
- Sales

Coach's Interpretation

If conversations are high but qualified leads are low, improve the questions and clarify fit. If qualified leads are high but sales are low, inspect the offer, objections and purchase path.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF DMs are high but qualification is weak → improve discovery questions. IF qualified leads are high but sales are low → inspect the offer and objections.

IF DMs are high but qualification is weak → improve discovery questions. IF qualification is strong but sales are weak → inspect fit, proof, objections and checkout.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.
- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 9

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Create one simple path from content to conversation to a relevant next step.

Copy-and-Paste Template:

LEAD PATH

POST: “If you are small-business owners who have an offer but struggle to turn online attention into consistent inquiries and sales and posting regularly without a clear customer-acquisition path, comment GROWTH and I will send the first step.”

DM 1: “Thanks for commenting GROWTH. Before I send it, what are you currently trying to improve?”

DM 2: “Got it. Based on that, here is the relevant first step: [RESOURCE / CHECKLIST]. If you want the full process, here is 90-Day Growth & Content Audit Workbook: [LINK].”

TRACK: Source = Instagram post | Stage = New lead | Next action = answer question / review fit.

CTA / Next Action: Comment GROWTH if this is the problem you are working on.

Implementation: Test one keyword and one destination first; track the source and next action for every meaningful lead.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Create one simple path from content to conversation to a relevant next step.

Copy-and-Paste Template:

LEAD PATH

POST: “If you are small teams and freelancers who use AI inconsistently and waste time repeating manual tasks and using AI as random prompts instead of a repeatable workflow, comment WORKFLOW and I will send the first step.”

DM 1: “Thanks for commenting WORKFLOW. Before I send it, what are you currently trying to improve?”

DM 2: “Got it. Based on that, here is the relevant first step: [RESOURCE / CHECKLIST]. If you want the full process, here is AI Workflow Starter Kit: [LINK].”

TRACK: Source = Instagram post | Stage = New lead | Next action = answer question / review fit.

CTA / Next Action: Comment WORKFLOW if this is the problem you are working on.

Implementation: Test one keyword and one destination first; track the source and next action for every meaningful lead.

EXAMPLE 3 — Website Design & SEO Studio

Business/Niche: Website Design & SEO Studio

Today's Objective: Create one simple path from content to conversation to a relevant next step.

Copy-and-Paste Template:

LEAD PATH

POST: “If you are small businesses that need a credible website but are unsure what pages, conversion elements and SEO basics they need and having an incomplete or unclear website that makes customers hesitate, comment WEBSITE and I will send the first step.”

DM 1: “Thanks for commenting WEBSITE. Before I send it, what are you currently trying to improve?”

DM 2: “Got it. Based on that, here is the relevant first step: [RESOURCE / CHECKLIST]. If you want the full process, here is Small Business Website Launch Checklist: [LINK].”

TRACK: Source = Instagram post | Stage = New lead | Next action = answer question / review fit.

CTA / Next Action: Comment WEBSITE if this is the problem you are working on.

Implementation: Test one keyword and one destination first; track the source and next action for every meaningful lead.

EXAMPLE 4 — Graphic Design Freelancer

Business/Niche: Graphic Design Freelancer

Today's Objective: Create one simple path from content to conversation to a relevant next step.

Copy-and-Paste Template:

LEAD PATH

POST: “If you are small brands and creators who need consistent, professional visual assets without a chaotic design process and inconsistent branding and slow back-and-forth during design projects, comment DESIGN and I will send the first step.”

DM 1: “Thanks for commenting DESIGN. Before I send it, what are you currently trying to improve?”

DM 2: “Got it. Based on that, here is the relevant first step: [RESOURCE / CHECKLIST]. If you want the full process, here is Client Design Workflow Kit: [LINK].”

TRACK: Source = Instagram post | Stage = New lead | Next action = answer question / review fit.

CTA / Next Action: Comment DESIGN if this is the problem you are working on.

Implementation: Test one keyword and one destination first; track the source and next action for every meaningful lead.

EXAMPLE 5 — Online Course & Tutoring Business

Business/Niche: Online Course & Tutoring Business

Today's Objective: Create one simple path from content to conversation to a relevant next step.

Copy-and-Paste Template:

LEAD PATH

POST: “If you are learners who want a structured way to build a practical skill instead of consuming disconnected lessons and studying without a clear practice path, feedback loop or measurable outcome, comment LEARN and I will send the first step.”

DM 1: “Thanks for commenting LEARN. Before I send it, what are you currently trying to improve?”

DM 2: “Got it. Based on that, here is the relevant first step: [RESOURCE / CHECKLIST]. If you want the full process, here is Study & Skill Roadmap Workbook: [LINK].”

TRACK: Source = Instagram post | Stage = New lead | Next action = answer question / review fit.

CTA / Next Action: Comment LEARN if this is the problem you are working on.

Implementation: Test one keyword and one destination first; track the source and next action for every meaningful lead.

EXAMPLE 6 — Digital Product & Template Seller

Business/Niche: Digital Product & Template Seller

Today's Objective: Create one simple path from content to conversation to a relevant next step.

Copy-and-Paste Template:

LEAD PATH

POST: “If you are busy creators and small businesses that want ready-to-use digital templates instead of starting every task from scratch and wasting time creating repeatable business materials from a blank page, comment TEMPLATE and I will send the first step.”

DM 1: “Thanks for commenting TEMPLATE. Before I send it, what are you currently trying to improve?”

DM 2: “Got it. Based on that, here is the relevant first step: [RESOURCE / CHECKLIST]. If you want the full process, here is Digital Product Launch Template Pack: [LINK].”

TRACK: Source = Instagram post | Stage = New lead | Next action = answer question / review fit.

CTA / Next Action: Comment TEMPLATE if this is the problem you are working on.

Implementation: Test one keyword and one destination first; track the source and next action for every meaningful lead.

DAY 10 — Baseline measurement

TODAY'S MISSION

Record a baseline so future changes can be evaluated.

Coach's Briefing

Today we establish the measurement reference point. We are not trying to make the numbers look good; we are creating a reliable starting point.

Why This Matters

This day belongs to Phase 1 — FOUNDATION & MARKET CLARITY. The phase is designed to strengthen the commercial foundation so later content and sales decisions are based on a clear customer, problem, offer and baseline. Today's deliverable creates an asset; today's measurement tells you whether the next move is to continue, repair, test or scale.

Where You Are in the 90-Day Journey

Yesterday we worked on “Create the lead path.” Today we work on “Baseline measurement.” The next step is “Hook testing begins.”

Your Step-by-Step Action Plan

1. Review yesterday's evidence from “Create the lead path.” Write down one result, one lesson and one question that today's work should answer.
2. Define today's decision: baseline measurement. Write it in one sentence before you start creating.
3. Complete the exact deliverable for today. Use the existing workbook, tracker or product assets rather than creating a second system beside the one you are building.
4. Publish or implement the primary Instagram action shown in today's content table. Use one CTA that matches the current stage of the customer journey.
5. Spend 20–30 minutes on the relationship or lead action. Capture useful customer language, objections and questions instead of treating engagement as a numbers game.
6. Record the relevant metrics and write: “What happened → what it probably means → what I will change tomorrow.” Tomorrow's task is “Hook testing begins.”

Exact Deliverable

A completed baseline dashboard covering content, profile, leads and sales.

Content to Publish / Implement

Element	Today's implementation
Format	Carousel
Topic	Teach one practical lesson connected to baseline measurement and the customer's next decision.
Hook	You cannot judge improvement until you know where you started.
Caption structure	HOOK → PROBLEM → INSIGHT → PROOF / APPLICATION → CTA, adapted to the customer's actual language.
CTA	Save this for your next planning session.
Visual direction	Keep the visual focused on one idea. Show the problem, process, product, proof or decision clearly; avoid covering the design with unnecessary text.

Exact Content Template

Slide 1 — You cannot judge improvement until you know where you started.

Slide 2 — Describe the customer's situation.

Slides 3–5 — Teach the framework, process or key points.

Slide 6 — Show an example, objection or common mistake.

Slide 7 — Give the practical next step.

Final slide — Save this for your next planning session.

Engagement / Relationship Action

Respond to comments and Story replies with substance. When someone reveals a problem, ask one useful follow-up question and add the wording to the Audience Language Bank.

Sales / Lead Action

Do not force a sale. If someone asks about the offer, answer clearly and use the conversation to learn about fit, objections and desired outcomes.

Metrics to Watch

- Reach
- Saves
- Shares
- Profile visits
- DMs/leads where applicable

Coach's Interpretation

Use today's result as evidence, not a verdict. Compare it with similar content or the relevant baseline, then decide whether to continue, repair, test or stop.

IF THIS HAPPENS → DO THIS

TROUBLESHOOTING RULE

IF the result is weak → diagnose the specific stage of the funnel that failed rather than changing the whole strategy.

IF the result is weak → identify the exact stage that failed, change one meaningful variable and test again before abandoning the strategy.

Niche Adaptation

Niche	Adapt the day like this
Business Growth	Turn the day's topic into a practical growth audit, bottleneck analysis or KPI decision.
AI & Productivity	Show a specific workflow with a clear input, process, output and verification step.
Website Design / SEO	Demonstrate a website or SEO problem and show the customer what to check before buying.
Social Media Marketing	Connect the topic to content, conversations, leads and sales rather than likes alone.
Career Development	Turn the framework into a checklist, practice task or interview/job-search decision.
Online Education	Show how the learner moves from information to practice, feedback and measurable skill.

Use the Master Niche Adaptation Library at the back of the guide. Adapt the problem, language, proof and CTA to the niche you serve.

End-of-Day Checkpoint

- ☐ Today's primary asset was created and published, scheduled or implemented.

- ☐ The CTA matched the objective instead of asking for unrelated actions.
- ☐ Relevant comments, replies and DMs were answered.
- ☐ The important metrics were recorded.
- ☐ I wrote one learning and one decision for the next step.

Coach's Debrief

Before you close today's session, write the decision you are carrying forward. Today's result is useful only if it changes what you do next. If the evidence is weak, diagnose the bottleneck and make one controlled improvement.

Tomorrow's Direction

Tomorrow we build on today and move into the next task. Bring today's evidence, customer language, objections and decision note with you.

SIX-NICHE PRACTICAL EXAMPLES — DAY 10

EXAMPLE 1 — Business Growth & Digital Marketing Consultant

Business/Niche: Business Growth & Digital Marketing Consultant

Today's Objective: Create an honest starting snapshot before making major changes.

Copy-and-Paste Template:

BASELINE ENTRY — Business Growth & Digital Marketing Consultant

Date: [DATE]

Reach/views: [CURRENT VALUE]

Profile visits: [CURRENT VALUE]

Relevant DMs: [CURRENT VALUE]

Qualified leads: [CURRENT VALUE]

Sales: [CURRENT VALUE]

Revenue: [CURRENT VALUE]

Best current content: [POST / TOPIC]

Main bottleneck I suspect: [STAGE]

Decision: "For the next test, I will change only [ONE VARIABLE]."

CTA / Next Action: Save your baseline; improvement cannot be judged without a starting point.

Implementation: Enter real account data in the brackets. The numbers above are fields, not invented results.

EXAMPLE 2 — AI Productivity & Automation Consultant

Business/Niche: AI Productivity & Automation Consultant

Today's Objective: Create an honest starting snapshot before making major changes.

Copy-and-Paste Template:

BASELINE ENTRY — AI Productivity & Automation Consultant

Date: [DATE]

Reach/views: [CURRENT VALUE]

Profile visits: [CURRENT VALUE]

Relevant DMs: [CURRENT VALUE]

Qualified leads: [CURRENT VALUE]

Sales: [CURRENT VALUE]

Revenue: [CURRENT VALUE]

Best current content: [POST / TOPIC]

Main bottleneck I suspect: [STAGE]

Decision: "For the next test, I will change only [ONE VARIABLE]."

CTA / Next Action: Save your baseline; improvement cannot be judged without a starting point.

Implementation: Enter real account data in the brackets. The numbers above are fields, not invented results.

EXAMPLE 3 — Website Design & SEO Studio

Business/Niche: Website Design & SEO Studio

Today's Objective: Create an honest starting snapshot before making major changes.

Copy-and-Paste Template:

BASELINE ENTRY — Website Design & SEO Studio

Date: [DATE]

Reach/views: [CURRENT VALUE]

Profile visits: [CURRENT VALUE]

Relevant DMs: [CURRENT VALUE]

Qualified leads: [CURRENT VALUE]

Sales: [CURRENT VALUE]

Revenue: [CURRENT VALUE]

Best current content: [POST / TOPIC]

Main bottleneck I suspect: [STAGE]

Decision: "For the next test, I will change only [ONE VARIABLE]."

CTA / Next Action: Save your baseline; improvement cannot be judged without a starting point.

Implementation: Enter real account data in the brackets. The numbers above are fields, not invented results.

EXAMPLE 4 — Graphic Design Freelancer

Business/Niche: Graphic Design Freelancer

Today's Objective: Create an honest starting snapshot before making major changes.

Copy-and-Paste Template:

BASELINE ENTRY — Graphic Design Freelancer

Date: [DATE]

Reach/views: [CURRENT VALUE]

Profile visits: [CURRENT VALUE]

Relevant DMs: [CURRENT VALUE]

Qualified leads: [CURRENT VALUE]

Sales: [CURRENT VALUE]

Revenue: [CURRENT VALUE]

Best current content: [POST / TOPIC]

Main bottleneck I suspect: [STAGE]

Decision: "For the next test, I will change only [ONE VARIABLE]."

CTA / Next Action: Save your baseline; improvement cannot be judged without a starting point.

Implementation: Enter real account data in the brackets. The numbers above are fields, not invented results.

EXAMPLE 5 — Online Course & Tutoring Business

Business/Niche: Online Course & Tutoring Business

Today's Objective: Create an honest starting snapshot before making major changes.

Copy-and-Paste Template:

BASELINE ENTRY — Online Course & Tutoring Business

Date: [DATE]

Reach/views: [CURRENT VALUE]

Profile visits: [CURRENT VALUE]

Relevant DMs: [CURRENT VALUE]

Qualified leads: [CURRENT VALUE]

Sales: [CURRENT VALUE]

Revenue: [CURRENT VALUE]

Best current content: [POST / TOPIC]

Main bottleneck I suspect: [STAGE]

Decision: "For the next test, I will change only [ONE VARIABLE]."

CTA / Next Action: Save your baseline; improvement cannot be judged without a starting point.

Implementation: Enter real account data in the brackets. The numbers above are fields, not invented results.

EXAMPLE 6 — Digital Product & Template Seller

Business/Niche: Digital Product & Template Seller

Today's Objective: Create an honest starting snapshot before making major changes.

Copy-and-Paste Template:

BASELINE ENTRY — Digital Product & Template Seller

Date: [DATE]

Reach/views: [CURRENT VALUE]

Profile visits: [CURRENT VALUE]

Relevant DMs: [CURRENT VALUE]

Qualified leads: [CURRENT VALUE]

Sales: [CURRENT VALUE]

Revenue: [CURRENT VALUE]

Best current content: [POST / TOPIC]

Main bottleneck I suspect: [STAGE]

Decision: “For the next test, I will change only [ONE VARIABLE].”

CTA / Next Action: Save your baseline; improvement cannot be judged without a starting point.

Implementation: Enter real account data in the brackets. The numbers above are fields, not invented results.

DEMO ENDS HERE — CONTINUE WITH THE COMPLETE 90-DAY GUIDE

You have now seen the beginning of the system—from market clarity and offer preparation to the first 10 days of structured implementation. This preview is intentionally limited so you can evaluate the quality and practical coaching approach before purchasing the complete guide.

THE PROBLEM THIS GUIDE IS BUILT TO SOLVE

If you are posting on Instagram but still find yourself asking what to post next, how to attract the right people, how to turn attention into meaningful conversations, or what to do after someone shows interest, the problem is often not a lack of effort—it is the lack of a connected system.

Without a structured process, it is easy to post inconsistently, run out of ideas, collect engagement without a clear business next step, struggle with follow-up, or keep changing tactics without knowing which part of the customer journey needs attention.

THE COMPLETE GUIDE IS THE NEXT STEP

The complete 90-Day Instagram Content & Sales Kit continues beyond this demo with the remaining implementation days and the connected system needed to keep progressing. It is designed as an operating manual rather than a collection of random posting ideas, with structured actions, content implementation, measurement, interpretation, troubleshooting and decision-making throughout the journey.

The full guide gives you the remaining roadmap, practical implementation tasks, content systems, sales and follow-up processes, measurement checkpoints, niche applications and the continuation needed to work through the complete 90-day program.

COMPLETE 90-DAY GUIDE

₦10,000 / \$15

WHY THE DEMO STOPS HERE

This is only the beginning. The demo stops here so you can see how the system works before purchasing the complete guide. The remaining days are intentionally not included in this sample.

If you need a structured path instead of guessing what to post, what to test, how to move interested people toward a decision, and what to do next as you collect evidence, the complete guide is the version you need.
